

Md. Nayem Hawladar

Backend Developer · Competitive Programmer

69 Mohakhali A/C, Dhaka · ✉ nayeem.me.dev@outlook.com · 🌐 github.com/Nayeem-Ahmmad
🔗 Codeforces: [nayeem17](#) · 🔗 LeetCode: [nayeem17](#) · 🔗 CodeChef: [runtime17](#)

Summary

Passionate Computer Science undergraduate and competitive programmer with hands-on experience in software development, technical mentoring, and product support. Proficient in C/C++, Python, and web technologies including Django, Django REST Framework, and React. Experienced in building RESTful APIs, JWT-based authentication, content moderation, and full-stack application development. Consistent performer in competitive programming with 1500+ problems solved across Codeforces, CodeChef, and LeetCode

Experience

Kahf Bangladesh

Dhaka, Bangladesh

Software Support · Moderation Specialist

Jun 2025 – Jun 2026

- Worked on the Hikma platform — responsible for content moderation and maintaining community quality standards.
- Provided technical support for Kahf Guard product, resolving user-facing issues efficiently and improving satisfaction.
- Collaborated with the development team to identify, report, and reproduce bugs, improving overall product reliability.
- Documented support cases and helped build an internal knowledge base to streamline future issue resolution.

Shohoj Coding / International Standard University

Dhaka, Bangladesh

Programming Mentor (C++)

July 2025 – Present

- Mentoring junior students in C/C++ programming, data structures, and algorithmic problem solving.
- Serving as the official programming mentor at International Standard University.
- Conducting regular sessions on competitive programming strategies, contest preparation, and algorithm design.
- Helping students develop strong foundations in OOP, memory management, and the C++ STL.

Projects

Wearify Sells

Django · DRF · React · Tailwind CSS · Celery · Redis · PostgreSQL · Cloudinary · JWT

[Backend](#) — [Frontend](#) — [Live Demo](#)

- Built a full-stack e-commerce fashion platform with a Django REST Framework backend and a React/Vite frontend, deployed on Render with PostgreSQL and hosted on Vercel, using Cloudinary for image storage.
- Implemented secure authentication with a custom AbstractUser model, Google OAuth (JWT-based) sign-in, and a combined email/phone login backend.
- Integrated Celery with Upstash Redis (TLS) for asynchronous background processing and migrated transactional email delivery to Resend via django-anymail, resolving deliverability issues.
- Engineered an SEO-optimized, responsive frontend (React 19 native meta hoisting, JSON-LD, lazy loading) and a custom admin dashboard extending Django Unfold with Chart.js analytics.
- Designed a cart and checkout flow with order tracking, wishlist, and coupon/discount management for a smooth shopping experience.
- Set up CI-friendly deployment pipeline with environment-based settings for local, staging, and production environments.

Job Portal BD

Django · DRF · React · Tailwind CSS · JWT · PostgreSQL

[Backend](#) — [Frontend](#) — [Live Demo](#)

- Built a full-stack job portal with role-based access control (Job Seeker, Employer, Admin) using Django REST Framework with JWT authentication and token blacklisting.
- Implemented real-time notification system using Django Signals, triggering automatic alerts on application submission and status updates.
- Integrated Celery with Redis for background task processing (email confirmations), reducing API response time significantly.
- Engineered advanced job search with multi-filter support (title, location, salary range, job type, experience level) and paginated results.
- Developed React.js frontend with Tailwind CSS featuring responsive dashboards for all user roles, deployed on Vercel; backend deployed on Railway with PostgreSQL.

Technical Skills

Languages: C, C++, Python, Java

Web Backend: Django, Django REST Framework (DRF), JWT Authentication

Web Frontend: React.js (Basic), JavaScript, Tailwind, HTML, CSS

Core CS: Data Structures & Algorithms, Problem Solving, OOP, System Design Basics

Tools & Platforms: Git, GitHub, VS Code, Linux

Languages: Bengali (Native), English (Good)

Achievements & Certifications

- Codeforces — Max Rating: 1140
- CodeChef — Max Rating: 1454
- LeetCode — Contest Rating: 1470
- Total 1500+ problems solved across Codeforces, CodeChef & LeetCode
- 2nd Runner-Up — ISU Inter-Department Programming Contest
- Participated in 100+ online and onsite competitive programming contests

Education

International Standard University

B.Sc. in Computer Science and Engineering · CGPA: 3.65 / 4.00

Dhaka, Bangladesh
2023 – Present (7th Semester)
